

TX7331

Mimic Panel

Feature and Benefits

- Alarm LED display of individual device or a zone and group
- Send sound alarm signal with the control panel
- Can display up to 256 alarm points.
- Can upload default information
- Fully Monitored with Self-test function
- Wall mount

Technical Specification

Power Rating

Power Supply

DC-24V (External EN54-4 PSU is required)

Recommended PSU is TX24-5A/10A

Bus Voltage

16V-28V

Bus Current

1.0mA

Bus Alarm Current

1.2mA

Standby Current

25mA

Alarm Current

80mA

Indicator

LED Display

Material / Colour

Flat sheet Metal / Light Gray

Dimension

349mm x 275mm x 68mm (Standard)

IP Grade

IP30

Operating Environment

Temperature

-10°C~+50°C

Relative Humidity

≤95%, non-condensing
