

# TX3230

## Wireless Repeater

### Features and Benefits

- 433MHz Wireless Repeater
- Software and Hardware Multi-stage Filtering to improve the anti-interference and anti-inhibition ability.
- Low Power Consumption

### Overview

The TX3230 Wireless Repeater is used to extend wireless coverage by repeating the 433Mhz wireless signal generated between the panel and the detector. The TX3230 is not only to expand the wireless range, it also improves wireless transmission rate to maintain the stable communication of the panel and the detector.

### Technical Specification

Power Rating	
Input Voltage	AC220V 50Hz/ Micro USB 5V
Power Consumption	1W
Repeater	
Transmission Frequency	433MHZ
Transmission Distance	Repeater to repeater: 200 m maximum/ Repeater to detector: 100m
Extended layer	3
LED Indicator	Data indicator / Status indicator

Material / Colour	ABS / White Glossy finishing
Dimension	110.8 mm x 142 mm x 32.4 mm
Weight	138g
Operating Temperature	-10°C to +55°C
Humidity	0 to 95% Relative Humidity, Noncondensing
